

Vancouver - May 2020

CTMI is pleased to announce that preliminary design, partnership and data collection work are underway for the Canadian 'Private Public Partnership' program segment on AgriFood services in CTMI. This includes but is not limited to Covid-19 related food supply issues.

This project also includes a Community_AI chapter on 'best practices', 'labour issues', 'new business formation in AgriFood & securing additional supply', environmental practices' and the 'potential role of increased indigenous AgriFood production'
